

WELL CONTROL TRAINING TAKEN SERIOUSLY

To meet the industry demands for more comprehensive well control training, Wild Well Control has developed a new well control training program. The new well control training program is accredited by IADC to provide all levels of *WellCAP*® certification, including the new *WellCAP*® Plus program.

Wild Well Control, Inc.'s training division, Well Control Training, has developed a more reliable training program that is both challenging and provides more practical well control training to drilling and production personnel.

Well Control Training offers:

- Permanent training facilities – Houston and Casper
- Traveling schools scheduled
- Dual instructors, trained and experienced
- Accelerated format – Supervisor Level for experienced drilling/production personnel (Houston only)
- Extended simulator exercises that are realistic and practical

For a new and challenging learning experience in well control, please call 281-784-4770 for scheduling.
